

## Odfjell certifies all its products as **vegan**

In winemaking, it is very common to use inputs of animal origin. There is currently a growing interest in the world for vegan products. For many years, Odfjell has not been using products of animal origin for making its wines, which is why we have decided to certify them and thus bring peace of mind to our consumers who prefer vegan products.

Because we know how important it is to know what you drink, we want to be transparent in the quality of the products we offer. The wines that have obtained the "V-label" seal are our Armador, Capítulo, Orzada, Winemaker's Travesy and Aliara. As of today, they are all certified vegan wines, and soon you'll start seeing the seal on our back labels.

**The V-Label seal:** *This is a certification of European origin, widely recognized at international level. It certifies products that don't use any ingredients of animal origin in their elaboration, including both the final product and their processes. This is an annual certification and, in the case of wine, it is reviewed every year to incorporate new harvests.*

### ARMADOR

Merlot  
Valle del Maipo Organic Wine

Harvest Date	Second week of March	●●●○○○○●
