Producer Profile

Viticulture

Certified organic farming, the plots have a green cover, and the use of bio-organic fertilisers, cover crop, bio-stimulants and phyto-regulators are used to make the plants stronger against possible diseases. This attention to detail in the vineyard means minimal intervention in the winery. Only oenological products certified for use in organic agriculture are used.

Winemaking

Harvested in the cool of the night to retain freshness, this white wine, organically cultivated undergoes a vegan friendly vinification and fermentation in stainless steel, with bâtonnage for at least 3 months.

Tasting Note
