

Château Jaron, AOC Bordeaux, Bordeaux, France, 2022

Producer Profile

Château Jaron is located in the heart of the Bordeaux vineyards, between the Dordogne and Lot et Garonne.

Philippe Libérateur took control of the family estate in 1994 and together with his wife Caroline, they cultivate over 40 hectares across four communes: Landerrouat, Soussac, Saint-Antoine du Queyret and Pellegrue. Not happy with just producing exceptional quality Bordeaux wines, they have also adopted the use of amphorae for ageing, bringing exceptional freshness and modernity to their wines. This curiosity is reflected in everything they do.

Viticulture

Vineyards are planted in the far east of the region on clay-limestone and clay-siliceous soils. The average age of the vineyards is 30 years with their roots sunk deep into the sub-soils to obtain moisture, vital to withstand the increasingly hot and humid summers. As a result, grapes are densely flavoured, and fully ripen every vintage. With a keen interest in biodiversity, all vineyards are cultivated with sustainability in mind and to mitigate the impact of their activities as much as possible, with certifications from Haut Valeur Environnementale and 'Bordeaux Cultivons Demain'.

Winemaking

Grapes travel across sorting tables, to ensure only the highest quality fruit goes into the final wines. Temperature-controlled fermentation in stainless steel is used as standard, with micro-oxygenation to enhance fruit flavours and round off the tannins. The wines are then aged partially in stainless steel but the best parcels are aged in clay amphorae for twelve months prior to blending.

Tasting Note

Abundant blackcurrant intensity, with finesse and rounded, almost voluptuous tannins. Yet the most delightful characteristic is the incredible freshness and lift on the finish. Beautifully balanced and hugely pleasurable.

Food Matching

Bordeaux and a Sunday roast is a marriage made in heaven, whether it be roast chicken, beef or nut roast.
