

Bodegas Gracias, Spain

When Ana and Iván got together for a party with some oenologist friends in 2007, they decided to make some wine and put it in a barrel.

The results of this first vintage were astonishing and so Bodegas Gracias was born. After the success of the first vintage, they realised they had a chance to make a difference. In a region with a declining wine industry, Ana and Iván are on a mission to protect old vineyards of Bobal, Tardana and other local varieties, championing the vinous heritage of the area. They champion Manchuela as a region capable of producing exciting and relevant wines that draw on the best of tradition and indigenous varieties, yet with a spin that is undeniably looking to the future. These wines are artisanal and as natural as they come, being organically grown, fermented with natural occurring yeasts and minute sulphur additions, if any.

Viticulture

Predominantly growing the native Bobal variety, on gnarly old bush vines planted on mainly lime bearing clay soils. These wines are artisanal and as natural as they come, made ethically with respect for the environment and in an honest fashion.

Winemaking

Mostly fermented in oak and aged on the lees in stainless steel tanks or in tinaja or clay amphora.

Highlights

- Organically grown (not certified) and fermented with natural yeasts and minute sulphur addition (if any).
- Wines as natural and artisanal as they come.
