Oddbird Low Intervention No Alcohol Organic Red, Veneto, Italy

Producer Profile

Viticulture

The world's first low intervention wine that has also been liberated from alcohol. From hand picked grapes in a family owned vineyard situated on volcanic soils near the town of Breganze, in the Veneto region of Italy.

Winemaking

Hand harvested, 100% organic, spontaneous fermentation and micro vinified in barriques and tonneaux.

Tasting Note

Not only is this a delicious and youthful and vibrant red wine, it is low intervention, vegan friendly, organic and alcohol free to boot! A supple blend of Merlot and Pinot Noir that has blackberry, blueberry and cherry notes as well as a hint of cedar and vanilla from the delicate aging in oak. Some residual sugar on the finish keeps this wine youthful.

Food Matching

Easy to drink as an aperitif but also with strong-flavoured red meat dishes.
